

## The Micro USB Bluetooth® Adapter

MoGo Bluetooth® Adapter is a fingernail-sized, “plug and forget” device that plugs into any laptop or tablet USB port. It uses Bluetooth® standard v2.0 and USB 2.0 to deliver quicker connection times and enables users to create a wireless environment for virtually all Bluetooth®-enabled devices.

### Features

- Sits flush against laptop unlike standard adapters
- Ultra low-profile allows the adapter to stay in your laptops' USB port
- Simple set-up and almost instantaneous usability
- Connects laptop to a broad ecosystem of Bluetooth®-enabled devices – including printers, phones, cameras, PDAs, speakers, MP3 players, computer mice and VoIP services (e.g., Skype)
